Record and Review

Due: 05.04.2021 before 12:00 p.m. MT

Questions & Answers

1.Q. Please provide details on the "Student Support and escalation" function expected to be part of the proctoring system

1.A. The vendor should provide support student for learners needing trouble shooting to proceed with the Record and Review system. We expect you to provide details of your support plan with your proposal and if it will be via chat or live support to speak with the learners.

2.Q. Can you please explain on what you mean by support for low/no bandwidth connection?

2.A. We need minimum bandwidth connection options to assist our students who have low/no bandwidth connections.

3.Q. Can you share more details on the Policy Violation defined by WGU?

3.A. WGU Assessment Security policies involve a secure test environment that excludes the use of materials other than a clear whiteboard to begin the test, an approved calculator and one monitor in use by the learner in an area with no other people aged 12 or older.

4.Q. Can you share more information on what you mean by unlimited and flexible volume capacity?As the video analysis takes time, we need to know what the min and max duration of the exam is and what will be volume of users/submissions per exam.

4.A. There is no minimum on the assessments for students, and some exams can be as long as 5 hours in length.

5.Q. Is WCAG2.0AA compliance expected only for the candidate screens? Or are they expected even for reviewer and admin screens?

5.A. WCAG2.0AA compliance is expected for all.

6.Q. What will the average and max duration for the exams?

6.A. Exams typically average around 1.5-2 hrs. with maximum length of 5 hours.

Record and Review

Due: 05.04.2021 before 12:00 p.m. MT

7.Q. Can you share WGU assessment security policies?

7.A. WGU Assessment Security policies involve a secure test environment that excludes the use of materials other than a clear whiteboard to begin the test, an approved calculator and one monitor in use by the learner in an area with no other people aged 12 or older.

8.Q. Can you share WGU's whistic questionnaire?

8.A. Procurement will send the link to fill out Standard Questionnaire to the vendors who submit the intent to respond.

9.Q. Can you share more details on what you mean by routing students into and out of RR?

9.A. We are looking for a system/services that provide ease in routing students to use the Record and Review option along with those who opt of the experience.

10.Q. What would be the role of the onboarding agent?

10.A. The onboarding agent will verify the student's ID if there are issues from the automated identity verification process that is needed along with trouble shooting any issues students have launching the exam.

11.Q. In record and review proctoring, students will be automatically onboarded on the assessment system. Can you share more information on this requirement?

11.A. For the students who are in the Record and Review, this should be an automatic transition for them provided by the vendor after WGU has the student slated to use Record and Review. The connection to the Record and Review is expected to appear seamless with no additional navigation or downloads required, if possible.

12.Q. Does WGU recommend any specific APIs to check and validate student government issued IDs?

12.A. The API with the ID project would benefit all to be in tandem with the Record and Review project.

13.Q. Are there are specific format in which the outage reports are expected?

13.A. The format can be discussed and determined on mutual benefits for reporting.
